## Electrochemical (Bio)sensors for Biomedical Applications

Guest Editors:

### **Dr. Angeliki Brouzgou**

Department of Energy Systems,  
School of Technology, University  
of Thessaly, Geopolis, Ring-Road  
of Larisa-Trikala, GR-41500  
Larisa, Greece

### **Dr. Theodoros Damartzis**

Industrial Process and Energy  
Systems Engineering (IPESE),  
École Polytechnique Fédérale de  
Lausanne (EPFL), 1951 Sion,  
Switzerland

Deadline for manuscript  
submissions:

**closed (30 September 2022)**

### **Message from the Guest Editors**

Dear Colleagues,

As electrochemical technology has evolved over the years, it has proven to be a considerably important tool in the fields of neuroscience and medical diagnosis. The nervous system is controlled by many compounds, such as dopamine, ascorbic acid, and others (known also as neuromodulators), which can be detected with the aid of electrochemical sensors. Accurate detection of such substances could lead to earlier diagnosis of diseases and to a better comprehension of the nervous system. Selectivity and stability of the studied materials involved in such sensors are the main challenges, mainly for in vivo electrochemical recordings. Enzymeless-based electrochemical sensors are considered promising candidates for such compounds' detection.

Prof. Dr. Brouzgou Angeliki

Dr. Theodoros Damartzis

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Department of Electrical and  
Information Engineering,  
Politecnico di Bari, Via Orabona  
4, 70126 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
