Human-Robot Interaction for Intelligent Education and Engineering Applications

Guest Editors:

Dr. Hai Liu

Dr. Anne Roudaut

Dr. Zhanpeng Shao

Dr. Tingting Liu

Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editors

Recent years have seen significant improvements in robotics and sensors. While intelligent education has been of interest to the research community for some time, the way the COVID-19 pandemic swept across the world, halting traditional education, led to increased attention being given to intelligent education, HRI is a hotspot research domain in robotics and one of the research directions closest to industrialization, so its application in intelligent education is an important research domain for both robotics and education.

This Special Issue aims to provide an opportunity for researchers to publish their theoretical and technological studies on emerging theories in HRI-based intelligent education and their engineering applications within this domain. We invite authors to submit original research, new developments, experimental works, and surveys in the fields of human-robot interaction, intelligent education, and vision-based engineering applications.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
