Message from the Guest Editors

Dear Colleagues,

In order to highlight some of the latest inkjet sensors production advances, we would like to invite you to consider submitting a manuscript to our upcoming Special Issue, “Inkjet Production of Sensors”, to be published by the end of autumn 2018. Under the expanded scope of the journal, the aim of this Special Issue is to gather a collection of papers dedicated to all aspects of inkjet-printed sensors and biosensors, with a particular emphasis on novel approaches to sensor design and architecture, signal transduction and novel applications.

We welcome submissions from any area of sensing. Both research papers and review articles will be considered. If you are interested in contributing to this Special Issue, we would very much appreciate receiving the tentative title of your contribution.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
