## IoT Applications in Multisensorial and Multimodal Interaction

Guest Editors:

**Prof. Dr. George Ghinea**

**Dr. Niall Murray**

**Dr. Alexandra Covaci**

**Dr. Estêvão Bissoli Saleme**

Deadline for manuscript  
submissions:

**closed (15 April 2022)**

### Message from the Guest Editors

Multisensory experiences have increasingly been applied in human–computer interaction (HCI). In recent years, it has become commonplace to notice the development of haptic, olfactory, and even gustatory displays to create more immersive experiences. Companies and researchers alike are proposing new additions to the multisensory world and are unveiling new products that promise to offer amazing multisensory experiences where users can perceive odors, tastes, and the sensation of wind blowing against their face. Whilst researchers, practitioners and users alike are faced with a wide range of such new devices and applications, relatively little work has been undertaken to summarize efforts and initiatives in this area.

The current Special Issue addresses this shortcoming by targeting applications having at their heart sensors and devices targeting senses beyond that of sight and hearing, all interconnected in Internet of Things (IoT)-based ecosystems.

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Department of Electrical and  
Information Engineering,  
Politecnico di Bari, Via Orabona  
4, 70126 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
