## Sensing Technology in Internet of Vehicles

Guest Editors:

### **Dr. Hua-Yi Lin**

Department of Information Management, China University of Technology, Hsing-Chu 30301, Taiwan

### **Dr. Meng Yen Hsieh**

Computer Science and Information Engineering, Providence University Taiwan, Sha-Lu, Taiwan

### **Dr. Tienhsiung Weng**

Computer Science and Information Engineering, Providence University Taiwan, Sha-Lu, Taiwan

Deadline for manuscript submissions:

**closed (15 November 2023)**

### **Message from the Guest Editors**

Dear Colleagues,

The Internet of Vehicles (IoV) is the most important infrastructure for smart cities. With the development of the Internet of Vehicles, it has deeply integrated the Internet of Things with intelligent transportation. Intelligent transportation uses the Internet of Vehicles (IoV) as a solution for communication between vehicles. It improves traffic management applications and services in order to guarantee safety on roads.

This Special Issue welcomes contributions dealing with any of the technological facets of the Internet of Vehicles, including (but not limited to) the following:

- Wireless sensor networks within the IoV;
- IoVs over future internet architectures (NDN, CCN);
- Routing protocols for the IoV;
- Intelligent Life Monitoring System for Vehicles;
- Communications in the IoV;
- Applications of blockchain and cloud computing for the IoV;
- Artificial intelligence (AI) for the IoV;
- New technologies for the IoV.
- Social networks on the IoV;
- Communication in the IoV;
- Cyber security and privacy issues.

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
