Message from the Guest Editor

Dear Colleagues,

In recent years, microwave sensors are a hot topic for remote sensing in the 5G wireless era. Besides, microwave sensors are currently researching and developing versatile versions for various purposes, from materials characterization to industrial applications. This special issue includes the original research on new microwave devices-based sensing platforms such as bio, gas, and environment. It also includes a review of the state-of-art in microwave and millimeter-wave sensors and devices.

Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
