

## Novel Sensors and Sensing Technology Used for Empowering High-End Equipment Structure

Guest Editors:

**Dr. Yipeng Wu**

State Key Laboratory of  
Mechanics and Control of  
Mechanical Structures, Nanjing  
University of Aeronautics and  
Astronautics, Nanjing 210016,  
China

**Dr. Lihang Feng**

College of Electrical Engineering  
and Control Science, Nanjing  
Tech University, Nanjing 211816,  
China

**Dr. Mingpeng Yang**

School of Automation, Nanjing  
University of Information Science  
and Technology, 219 Ningliu  
Road, Nanjing 210044, China

Deadline for manuscript  
submissions:

**31 March 2025**

### Message from the Guest Editors

As high-end equipment structures are becoming lightweight, intelligent and multifunctional, it is necessary to use various sensors and acquire ambient information, provide endless data and power the equipment. The objective of this Special Issue is to provide wide coverage of research on the latest advances in sensors and/or sensing technologies in the field of high-end equipment and structures. The scope of this Special Issue includes but is not limited to the following:

- Novel sensor design, calibration and data processing;
- Sensor performance and reliability analysis in high-end equipment;
- IoT sensor networks and multi-functional sensing techniques;
- Computational sensing and perception in robotic systems;
- AI-enabled sensing technology in mechatronics systems;
- Other sensors techniques in high-end equipment structures.

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
