### Message from the Guest Editors

We would like to cordially invite you to participate in a special issue on “Non-Invasive Biomedical Sensors”. This special issue is focused on the latest achievements in chemical and physical biomedical sensors for the non-invasive and personalized health monitoring.

Contributions to this Special Issue may include, but are not limited to:

- Novel sensing techniques for non-invasive measurement of biomarkers;
- New insights into non-invasive biomarkers which provide information on the physiological state of people;
- Recent advances in sensor materials, properties and device concepts for non-invasive monitoring of chemical and physical body parameters;
- Sensor fabrication and testing techniques; Wearable sensors, Wireless sensors, and application-oriented non-invasive sensor systems, as well as closely-related topics, are welcome.
