Wearable Sensors for Human Health Monitoring and Analysis

Guest Editors:

Dr. Alessandro Scano

Dr. Alfonso Mastropietro

Dr. Rebecca Re

Dr. Paolo Perego

Deadline for manuscript submissions:
10 January 2025

Message from the Guest Editors

Dear Colleagues,

In recent times, many fields of research have been enhanced with the use of wearable sensors for the evaluation, monitoring and analysis of health in several contexts, including medical care, clinical assessment, home rehabilitation, industry, and others. This Special Issue invites original contributions that explore the use of wearable sensors for health-related purposes, covering a wide range of topics, such as:

- Novel projects and experiments that use wearable sensors to investigate health-related phenomena and outcomes;
- Longitudinal assessments and evaluations of wearable sensor-based interventions and therapies in clinical settings;
- Innovative sensor design, programming, and integration to enhance the performance, usability, and wearability of sensors;
- Integration of wearable sensors for multi-domain approaches to health monitoring;
- Novel algorithms and methods for processing, analyzing, and interpreting wearable sensors data;

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.
Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
