Message from the Guest Editors

The 25th Optoelectronics and Communications Conference (OECC 2020) will be held in Taipei, Taiwan, 4–8 October, 2020. The first OECC was held in Chiba, Japan, 1996, as an annual conference for researchers and engineers working in the fields of optoelectronics, optical fiber transmission, and photonic network systems in the Asia Pacific region to report, discuss, exchange, and generate ideas which advance the disciplines of optoelectronics and optical communications.

The main goal of this Special Issue, “Selected Papers from OECC 2020”, is to present the latest advances in research and novel applications of engineering and technology, especially a wide variety of sensor technologies from sensor devices and systems, to their applications. Potential topics include but are not limited to:

- Sensor networks
- Sensor systems
- Sensor data transmission
- Sensor materials
- Sensor devices
- Optical sensors
- Sensor modules
- Sensor integration
- Biomedical sensing
- Sensor data analysis
- Sensor applications
