Engineering, Kangwon National  
University, Samcheok, Korea

Deadline for manuscript  
submissions:

**closed (30 September 2020)**

### Message from the Guest Editors

Dear Colleagues,

With the advent of the 4th industrial era, research on the development of portable sensor devices capable of easily discriminating in the field and integrating detection signals into digital devices has been rapidly developed. One of the potential technologies for rapidly detecting biomolecules in the field is optical biosensors such as SPR, SERS, and optical fiber-based biosensors. This Special Issue also includes portable sensor technologies, such as optical sensors, using microfluidic devices and colorimetric paper sensors integrated with digital imaging analyzers.

Dr. Yun Suk Huh  
Prof. Bong Gill Choi

Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
