closed (31 August 2021)

Message from the Guest Editors

Dear Colleagues,

During the last decade, increasing attention has been paid to studies revolving around cultural heritage, covering aspects such as the 3D digitization of monuments, object reconstruction, classification, and artwork conservation. New sensors or settings have been proposed as well as new processing techniques, such as the use of sensor multi-modalities or artificial intelligence, particularly machine and deep learning. Nevertheless, several challenges remain. The aim of this Special Issue is to promote original and novel developments in cultural heritage studies, with topics including, but not limited to, the following: Multiview camera systems for 3D reconstruction; Setting and interpretation of multispectral, hyperspectral or Raman imaging etc.

For further information, please visit: https://www.mdpi.com/journal/sensors/special_issues/SCH.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
