Message from the Guest Editors

Dear Colleagues,

The purpose of this Special Issue is to promote the study of security issues in large-scale data networks. Ensuring that large-scale data networks such as social networks and the Internet of Things are secure has become a topic of increasing interest to both researchers and developers from academic fields and industries worldwide.

Keywords:

- data security for mobile internet and social networks
- privacy protection in mobile internet and social networks
- risk assessment in social networks and the Internet of Things (IoT)
- reliability analysis for social networks and the IoT
- data mining, knowledge discovery, and machine learning for social networks
- security protocols and formal analysis for social networks and the IoT
- anonymous communication in mobile social networks and the IoT
- blockchain applications for social networks and the IoT
- artificial-intelligence-based security for social networks and the IoT
- safety management for social networks and the IoT

sensors

an Open Access Journal by MDPI

Editor-in-Chief

Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
