Sensors and Pattern Recognition Methods for Security and Industrial Applications (SPR-SIA)

Guest Editors:

Prof. Dr. Michal Choras

Faculty of Telecommunications,
Computer Science and Electrical
Engineering, UTP University of
Science and Technology, 85-796
Bydgoszcz, Poland

Prof. Dr. Rafal Kozik

Institute of Telecommunications
and Computer Science,
University of Science and
Technology (UTP) in Bydgoszcz,
85-796 Bydgoszcz, Poland

Dr. Marek Pawlicki

Institute of Telecommunications
and Computer Science,
University of Science and
Technology (UTP) in Bydgoszcz,
Poland.

Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editors

Dear Colleagues,

In this Special Issue, it is our driving idea to invite high-quality papers which open the doors to accommodating new AI paradigms, approaches, and mechanisms in the domain of applied security. This includes pattern recognition, data analysis, and machine learning for industrial applications, including e-commerce.

The Special Issue will also present novel sensors (e.g., drones, IoT) used for security as well as innovative solutions for secure software development. Relevant topics include but are not limited to the following:

- security of IoT;
- security of cloud, fog, and edge networks;
- security and sensors in e-commerce;
- machine learning (shallow and deep) in security and industrial applications;
- sensors for security and industrial applications;
- innovative pattern recognition solutions;
- practical applications of AI in security;
- practical applications of AI in industrial applications;
- AI methods for threat prediction, detection, and mitigation;
- anomaly detection methods;
- AI and machine learning for secure software;
- biometrics;
- secure AI solutions;
- countering and detection of adversarial attacks

Special Issue

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
