Message from the Collection Editors

This Special Issue focuses on all security, trust, and privacy issues, and all efforts to investigate and address these challenges in current new computing environments.

In particular, the topics of interest include but are not limited to the following:

- User authentication in new computing environments
- Risk analysis and intrusion response
- Identity and access management in IoT
- AI security
- Measurement of IoT privacy leakage
- Mobile cloud security
- New cryptographic techniques
- Cloud security
- Security and privacy in big data
- Blockchain in new computing environments
- Software security
- Cybercrime
- IoT security and privacy
- Forensic techniques
- Usable security in new computing environments
- Cyber intelligence techniques

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
