Smart Sensors for Autonomous Underwater Vehicle

Guest Editor:

Prof. Dr. Fabio Leccese

Ricamatore di Misure Elettriche ed Elettroniche, Università degli Studi "Roma Tre", Rome, Italy

Deadline for manuscript submissions:

closed (31 July 2020)

Message from the Guest Editor

Autonomous underwater vehicles (AUV) are an extremely heterogeneous group of vehicles of various sizes that are able to operate in a submarine environment with a certain degree of autonomy with respect to control by human beings, or being operated remotely.

The Special Issue focuses on sensors addressed to the control of the AUV, that are able to perform specific tasks for specific missions; moreover, the Guest Editor encourages the scientific community to provide original research, even to correlated arguments.

This Issue will accept high-quality articles that contain original research results, and review articles, and will allow readers to learn more about technologies related to the potentiality of AUVs.

Therefore, articles reporting recent advances in sensor materials, sensor properties, sensor device concepts, sensor fabrication and testing techniques, application-oriented sensor systems, as well as closely-related topics, are welcome.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
