### **Message from the Guest Editor**

Dear Colleagues,

WISA is one of the main security research venues hosted by the Korea Institute of Information Security and Cryptology (KIISC) and sponsored by the Ministry of Science, ICT and Future Planning (MSIP), and co-sponsored by the Electronics and Telecommunications Research Institute (ETRI), the Korea Internet and Security Agency (KISA), and the National Security Research Institute (NSRI). In 2019, WISA will celebrate its 20th anniversary while moving toward its new position as the best contributor to information security applications. The primary focus of WISA 2019 will be on systems and network security including all other technical and practical aspects of security applications. This Special Issue will include extended versions of selected papers from WISA 2019, along with general papers closely related to the conference themes
