### Message from the Guest Editors

Dear colleagues,

In this Special Issue, we want to build a bridge between different scientific disciplines and offer highly innovative researchers in various fields a platform to exchange research in this exciting and emerging field: wearable sensors for health and physiological monitoring.

We, the guest editors of this Special Issue, represent research backgrounds in geographic information science, mobility research, and medicine with a focus on cardiovascular medicine and sports science. We herewith stand for the highly interdisciplinary approach that is essential in research in this emerging scientific field and highly anticipate submissions from a broad range of specialities to this Special Issue.
