Wireless Sensor Networks in Industrial Applications

Guest Editor:

Prof. Dr. Stavros Koubias

Department of Electrical and
Computer Engineering, University
of Patras, 26504 Patras, Greece

Deadline for manuscript
submissions:

closed (15 October 2023)

Message from the Guest Editor

The Wireless Sensors/actuators (actors) Networks (WSNs) support several important and critical applications areas, the most important of which is probably the critical real-time industrial/factory applications domain. The rapid evolution of the WSNs technologies and the increasing smartness of instrumentation are leading the industrial sector to evolve and reach the industry 4.0 era.

This Special Issue will provide an opportunity for researchers to publish their original achievements related to the above mentioned aspects which characterize the real-time industrial WSNs as a whole.

Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
