Deadline for manuscript submissions:

closed (15 September 2021)

Message from the Guest Editors

Dear Colleagues,

Advances in flexible materials, such as textile materials and manufacturing methods together with developments in sensing technology benefiting from the blooming of IoT have fostered new healthcare applications and solutions, both at point-of-care and in pervasive healthcare.

In this Special Issue, we call for papers presenting advances in wearable sensing and data processing with a highly plausible potential to enable novel p health solutions from novel transducer materials, to new data analytics and visualization methods through textile-electronic integration techniques or technologies for biomedical sensing

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
