Brain–Computer Interfaces (BCI) and Application in Healthy and Daily Life Activities

Guest Editors:

Prof. Dr. Fabio Babiloni

Department of Molecular
Medicine, Sapienza University of
Rome, 00185 Rome, Italy

Prof. Dr. Wanzeng Kong

College of Computer Science,
Hangzhou Dianzi University,
Hangzhou 310018, China

Dr. Gianluca Di Flumeri

Department of Molecular
Medicine, Sapienza University of
Rome, 00185 Rome, Italy

Deadline for manuscript
submissions:

closed (30 November 2021)

Message from the Guest Editors

Dear Colleagues,

BCIs and passive BCIs are related to the monitoring of the internal brain states of users/patients to give a feedback to them in real time or to feed some artificial intelligence systems behind the devices. *Sensors* is also oriented to host papers not only related to physical sensors (as for instance for the evaluation of different EEG electrodes) but also to the computational methodologies able to further expand the sensitivity of such EEG sensors. In such context, this Special Issue aims to collate submissions from the different worlds of clinical practitioners and academics interested in the brain responses of professional categories to stress or cognitive tasks (as, for instance driving a car, etc.).

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
