**Prof. Dr. Cheng-Hsin Hsu**

**Prof. Dr. Enrico Natalizio**

**Prof. Dr. Sofie Pollin**

Deadline for manuscript  
submissions:

**closed (30 June 2020)**

### Message from the Guest Editors

Dear Colleagues,

Unmanned aerial vehicles (UAVs) have entered many fields of application, such as disaster management, search and rescue, localization and mapping, structural inspection, transportation and delivery of goods, pollution and radiation monitoring, precision farming, etc. In recent years, research has intensified on networks of UAVs (or, UAV swarms) and, consequently, on enabling the autonomous and collaborative behavior of UAV swarms, e.g., for autonomous simultaneous localization and mapping, navigation, and reconstruction. An important building block in that endeavor is to provide high performance and robust wireless communication capabilities among UAVs (air-to-air) and to/from ground stations or sensors (air-to-ground).

This Special Issue is devoted to reporting novel scientific ideas, approaches, results, and (prototype) solutions/applications on communication in UAV swarms and with ground entities.

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
