Nanomaterial-Based Gas Sensors for Environmental, Agroalimentary, Safety and Industrial Applications

Guest Editors:

Prof. Dr. Giorgio Sberveglieri

Department of Information Engineering (DII), University of Brescia, Via Branze 38, I25133 Brescia, Italy

Dr. Veronica Sberveglieri

1. CNR-IBBR, Institute of Bioscience and Bioresources, 50019 Sesto Fiorentino (FI), Italy
2. Department of Life Science, University of Modena and Reggio Emilia, 41121 Modena, Italy

Deadline for manuscript submissions:

closed (10 October 2023)

Message from the Guest Editors

In recent years, gas sensors have been widely used in different fields, such as human health, environmental monitoring, automotive, and IoT in general.

The aim of this Special Issue is to highlight research with the potential to advance in new directions regarding new nanomaterials applied in gas sensor technology/devices.

In particular, we plan to focus our attention on gas sensor applications for environmental (indoor and outdoor), agroalimentary (from raw materials to processed), safety, and industrial applications.

We cordially invite you to submit original research systematically examining new sensing materials or preparation/integration methods.

Sensors can support, help, and increase the food sector's abilities, as well as increasingly become more user-friendly and closer to real needs.

The covered topics will be extended to sensing devices, networks, and an array of gas sensors.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
