### Message from the Guest Editors

The 2020 International Workshop on Antenna Technology (iWAT 2020) will be held on 25–28 February 2020 at Hotel InterContinental in Bucharest, Romania (<http://iwat2020.org>).

iWAT is an annual forum for the exchange of information on the progress of research and development in innovative antenna technology. It especially focuses on small antennas and applications of advanced and artificial materials to the antenna design. At iWAT, all the oral presentations are delivered by invited prominent researchers and professors. iWAT has a particular focus on posters by which authors have the opportunity to interact with leading researchers in their fields.

Authors of selected high-quality papers related to sensors and sensor networks from the conference will be invited to submit extended versions of their original papers (50% extensions of contents of the conference paper).
