Message from the Guest Editor

Dear Colleagues,

This Special Issue calls for high-quality, up-to-date research related innovative sensor technologies for intelligent control and computer vision. In particular, the Special Issue is going to be a sharing platform for the most recent achievements and developments in the sensor technology for intelligent control and computer vision. All submitted papers will be peer-reviewed and selected on the basis of both their quality and their relevance to the theme of this Special Issue.

We would like to invite authors to submit articles related to the utilization of new sensor technology for the advanced intelligent control system and computer vision system to this special issues.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
