Research Center and School of  
Electrical and Computer  
Engineering, Seoul National  
University, Gwanak-Gu Gwanakro  
1, Seoul 08826, Korea

**Dr. Seung-Yeol Lee**

School of Electronics  
Engineering, College of IT  
Engineering, Kyungpook National  
University, Daegu 41566, Korea

Deadline for manuscript  
submissions:

**closed (30 September 2021)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to incorporate various approaches to extracting image depth with the metasurface and identifying how the metasurfaces can contribute to the development of 3D display. In this Special Issue, you are encouraged to submit various developments by metasurfaces for depth sensing or 3D display system. Topics of interest include but are not limited to the following ones. For further information about the topics of interest, please visit:  
[https://www.mdpi.com/journal/sensors/special\\_issues/mds3d](https://www.mdpi.com/journal/sensors/special_issues/mds3d)

1. Advanced metasurface/metalens design for depth extraction;
2. Metasurface design for reducing the form factor of depth sensing/3D display systems;
3. Efficient pupil spread function engineering and realization by metasurfaces for depth sensing;
4. 3D object modeling achieved by metasurface-integrated optic systems;
5. Advanced 3D display platform in which metasurfaces act as a crucial element;
6. Multifunctional/multispectral metasurface design for substitution of existing depth sensing/3D display;
7. Other approaches with metasurfaces that can contribute to the development of depth sensing/3D display.

Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
