submissions:

closed (30 June 2022)

Message from the Guest Editor

Dear Colleagues,

We welcome original research papers describing low-cost sensors for early diagnosis. This Special Issue will include research articles describing point-of-care diagnostic tools for early diagnosis. Manuscripts describing the designing and fabrication of flexible and wearable low-cost diagnostic devices will have preference. Moreover, critical review articles describing the progress in the research field of low-cost and flexible sensors are welcome.

Research areas may include (but not limited to) the following:

- Biomimetic receptors in diagnostics;
- Low-cost materials for the construction of sensors;
- Flexible and wearable sensors;
- Traditional and non-traditional materials in the electrochemical sensor;
- Modified electrodes for chemo and biosensing.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
