Soft Sensors, Actuators and Sensing Technology for Medical Applications

Guest Editor:

Dr. Thanh Nho Do

Graduate School of Biomedical Engineering, University of New South Wales, Sydney, NSW 2052, Australia

Deadline for manuscript submissions:

closed (15 November 2022)

Message from the Guest Editor

Dear Colleagues,

Soft robotics has been rising up as an emerging field in healthcare systems where highly compliant materials and structures are used to build soft, elastic, deformable systems that go beyond traditional rigid approaches. Soft sensor and actuator technologies are opening new possibilities to a wide range of applications in surgical robots, medical devices, haptics, defence, industry, entertainment, and education. Despite these advances, there are still major technical challenges for the design, fabrication, and modelling of soft sensor and actuator technologies that prevent them from being directly used in practice. The main purpose of this Special Issue is to solicit excellent works from experts in the field to solve the existing challenges of soft sensors, soft actuators, and their related sensing technologies towards the development of “softer and smarter” robotic systems for medical systems.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
