Message from the Guest Editors

Dear Colleagues,

This Special Issue intendeds to provide a comprehensive overview of the current developments in process tomography applications, including but not limiting to instrumentation design, application of different tomographic techniques, hard/soft fields, multimodalities, and the use of tomography in new areas of application. This Special Issue will publish full research articles, reviews, and highly rated manuscripts addressing the above topics.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
