## Indoor Positioning Technologies for Internet-of-Things

### Message from the Guest Editors

This Special Issue aims to collect outstanding and innovative research works proposing plug-n-play and calibration-free indoor positioning technologies aimed at providing users with indoor positioning functionality as a transparent and user-friendly service totally integrated into user devices. Keywords:

- indoor positioning
- user experience
- RSSI
- wireless sensor networks
- Wi-Fi
- bluetooth
- home automation
- tracking
- robotics
- multimedia

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
