

## Special Issue

# Fiber Bragg Grating Sensors: Recent Advances and Future Perspectives

### Message from the Guest Editor

This Special Issue wishes to explore one of the most popular trends of relevance to *Sensors*, which represents an influential platform for the exchange of scientific knowledge in the field of fiber Bragg gratings and sensor systems based on them. This issue is dedicated, but not limited, to the following topics:

Modeling and simulation of FBGs;

Fabrication of FBGs;

FBGs in different classes' optical fibers;

Multiparameter FBG sensors;

Sensors on shifted, chirped, tilted, superstructured, etc. FBGs;

High-speed optoelectronic interrogation methods;

Microwave photonics interrogation methods;

FBG sensors in dynamic measurements;

FBG sensors in quasistatic measurements;

FBG sensors in DTS, DTSS, and DAS systems;

FBG sensors in onboard applications;

FBG sensors in medicine and living systems monitoring;

Dual nature of FBGs as elements of sensor and telecommunication systems;

Historical and future trends reviews.

---

### Guest Editor

Prof. Dr. Oleg G. Morozov

Department of Radiophotonics and Microwave Technologies, Kazan National Research Technical University Named after A.N. Tupolev-KAI, K. Marx Str. 10, 420111 Kazan, Russia

---

### Deadline for manuscript submissions

closed (30 June 2023)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
