

## Special Issue

# Recent Developments of Integrated Photonic Sensors

### Message from the Guest Editors

Dear colleagues, I am delighted to invite you to submit your valuable work for a Special Issue of the Journal *Sensors* on "Recent Developments of Integrated Photonic Sensors". In recent years, the development of highly integrated photonic sensors is taking place at a rapid pace. These devices can be employed in several eye-catching applications, such as monitoring/sensing of temperature, proximity, pressure, light, ultrasonic, chemicals, etc. This Special Issue will cover new developments and recent advances in the design, fabrication, and performance evaluation of integrated photonic sensors based on different platforms. Original research work, letters, and review papers based on theoretical, numerical, and experimental data are welcomed in this Special Issue. For detailed information, please visit [here](#). Dr. M. Ali Butt

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
