

Special Issue

Underwater Wireless Communications and Networking

Message from the Guest Editors

The purpose of this Special Issue is to solicit original research papers on all aspects of underwater wireless communications and networking, including (but not restricted to):

- Localization
 - communication-based navigation for low-cost AUVs; localization, detection, classification, and tracking; simultaneous localization and mapping; short-data-record under-ranked localization; graph localization
- Physical layer
 - modulation/coding/signal processing/arrays; channel modeling/prediction; autonomous communications (receiver feedback/transmitter adaptivity); secure LPD/LPI communications; full-duplex
- Networking
 - channel sharing under high latency; routing protocols; crosslayer networking, handover, and meshing; application-specific system level optimization; distributed mobile networking
- Wireless Platforms and Applications
 - software-defined acoustic/ultrasonic/optical modems; sensor integration; next generation platforms; arctic, oil and gas/smart aqua/agriculture; testbeds

Guest Editors

Dr. Dimitris A. Pados

Professor, I-SENSE Fellow, Charles E. Schmidt Eminent Scholar in Engineering and Department of Computer and Electrical Engineering and Computer Science, Florida Atlantic University, Boca Raton, FL 33431, USA

Dr. George Sklivanitis

Department of Electrical Engineering and Computer Science, Florida Atlantic University, Boca Raton, FL 33431, USA

Deadline for manuscript submissions

closed (15 January 2022)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
