

Special Issue

Integrated High-performance Imagers

Message from the Guest Editor

An increasing interest in new applications is driving significant research activity in the field of low-cost, ultra-high speed cameras. Such cameras must exhibit far smaller shutter time and jitter, while other properties, such as sensitivity, dynamic range, and linearity, may be traded off for speed. In this special issue we call for contributions on state-of-the-art in high performance imaging designs for a variety of new and conventional applications in science, engineering, and consumer fields. Prof. Dr. Edoardo Charbon

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
