Deadline for manuscript
submissions:

closed (30 May 2022)

Message from the Guest Editor

Food quality and safety is the major concern for modern consumer, who is increasingly focused on health and wellness. Bioactive compounds play a key role on food quality and safety. Within this context, addressing the influence that different culture conditions and post-harvest practices on bioactive compounds content of food is important. Cereals, vegetables, fruits, oilseeds, herbs, and spices, are rich sources of bioactive phytochemicals (i.e., phenolics, carotenoids, tocopherols, sterols, etc.) and other interesting ingredients (i.e., protein, carbohydrate, and lipid) with health-promoting [...]

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
