

Recent Advances in Environmental Separations Analysis

Collection Editor:

Dr. Amin Mojiri

School of Sustainable
Engineering and the Built
Environment, Arizona State
University, Tempe, AZ, USA

Message from the Collection Editor

Nowadays, environmental issues are facing several serious challenges, including all kinds of emissions and pollution threatening the environment and human health. Environmental analysis includes all analytical aspects of studies related to environmental problems and their management. Treatment of soil, water and air pollution, and recovery of metals and resources from soil, water and solid wastes can have a great contribution to the environmental analysis section. Apart from that, the development of new analytical methods or improvement of current techniques for the monitoring of contaminants is of paramount importance for this section. Your valuable unpublished research and review papers can find a worldwide audience among readers of *Separations*.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Frank L. Dorman

Department of Chemistry,
Dartmouth College, Hanover, NH

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Chromatography*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
