### Message from the Guest Editors

This Special Issue welcomes original research articles and reviews reporting the developments and applications of novel sample preparation techniques for the determination of drugs in various matrices (biological, pharmaceutical, food, environmental, etc.).

Please note that in the cases of review articles an additional brief (1-2 pages) description of the topic including a draft index is required. This preliminary step is essential to avoid overlapping topics.

Deadline for manuscript  
submissions:

**closed (31 August 2023)**

## Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Chromatography*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
