Technology, University of Split,  
Split, Croatia

**Prof. Dr. Ivica Blažević**

Department of Organic  
Chemistry, Faculty of Chemistry  
and Technology, University of  
Split, 21000 Split, Croatia

Deadline for manuscript  
submissions:

**closed (30 April 2024)**

### Message from the Guest Editors

Plants are sources of bioactive natural compounds. Due to their anti-inflammatory, anticarcinogenic, antioxidant, and antibacterial properties, these substances are essential for maintaining human health. These properties can have a positive impact on a variety of disorders, including autoimmune, cardiovascular, cancer, inflammatory, and neurological conditions. This Special Issue's objective is to find the potential natural compounds that are beneficial to human health. This Special Issue includes a selection of research articles or reviews that highlight recent advances in the study of plant metabolites, including methods for their isolation, with an emphasis on green technology, separation techniques (chromatography), and identification (mass spectrometry, NMR), in addition to studying their antioxidant, antimicrobial, and antiproliferative activity.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Separations* offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
