

Analytical Methods and Application of Separation Techniques in Food Science

Guest Editors:

Dr. Natalia Drabińska

1. Department of Chemistry and Biodynamics of Food, Institute of Animal Reproduction and Food Research of Polish Academy of Sciences, 10-748 Olsztyn, Poland
2. Institute of Food Technology of Plant Origin, Poznań University of Life Sciences, 31 Wojska Polskiego Street, 60-624 Poznań, Poland

Dr. Marta Ferreiro-González

Department of Analytical Chemistry, Faculty of Sciences, IVAGRO, Agrifood Campus of International Excellence (ceiA3), University of Cadiz, 11510 Puerto Real, Cadiz, Spain

Message from the Guest Editors

Food products are complex matrices containing various molecules, which can have beneficial or harmful effects on human health, determine the flavour of foodstuffs, and be related to food spoilage. The development of separation techniques resulted in the massive increase of studies focused on the analysis of compounds in food samples.

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
