Separation Process through Adsorption for Sustainable Utilization of Bioresources

Guest Editor:

Dr. Hideo Maruyama

Graduate School of Fisheries
Sciences, Hokkaido University,
Hokkaido, Japan

Deadline for manuscript
submissions:

closed (20 February 2024)

Message from the Guest Editor

We invite authors to submit papers on recent advances and results in the recovery of bio-resources using adsorption separation. Topics include, but are not limited to: the adsorption separation of previously unutilized/underutilized bio-resources, the development of adsorbents that are suitable for utilization as bio-resources, adsorption separation processes for applied bio-resources and materials, and methods for laboratory-based and practical analyses of adsorption processes of biological materials.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Frank L. Dorman

Department of Chemistry,
Dartmouth College, Hanover, NH
03755, USA

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
