Department of Chemistry, Sri Ramakrishna College of Arts & Science, Coimbatore 641006, Tamilnadu, India

Dr. Chitiphon Chuaicham

Department of Earth Resources Engineering; Kyushu University, 744 Motooka, Nishiku, Fukuoka 819-0395, Japan

Deadline for manuscript submissions:

closed (20 July 2023)

Message from the Guest Editors

A technique based on a photocatalytic method has gained much interest for its potential use in environment purification, as solar energy is an inexhaustible and environmentally friendly energy resource. Moreover, visible light to remove pollutants constitutes a major abiotic pathway for the remediation of natural ecosystems. The use of environmentally friendly reagents and catalysts, together with solar energy as an abundant and renewable energy resource, is the basis of photocatalysis. The design of photocatalysts and their use for the removal of organic, pharmaceutical, and pesticide pollutants in the presence of visible or direct sunlight irradiation as an innovative and viable strategy for the purification of wastewater constitutes the topic of the present Special Issue.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Separations offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
