

## CEGSS Yesterday, Today and Tomorrow

Collection Editors:

**Prof. Dr. Bogusław Buszewski**

Department of Environmental  
Chemistry and Bioanalytics,  
Faculty of Chemistry, Nicolaus  
Copernicus University in Toruń,  
Gagarina 7, 87-100 Toruń, Poland

**Prof. Dr. Erwin Rosenberg**

Institute of Chemical  
Technologies and Analytics,  
Vienna University of Technology,  
Getreidemarkt 9/164, A-1060  
Vienna, Austria

### Message from the Collection Editors

Central European Group for Separation Science (CEGSS) was established at the beginning of the 1990s. Initially, it consisted of 4 countries (Slovenia, Croatia, Hungary, and Slovakia), while currently, it consists of 11 countries (Austria, Czech Republic, Italy, Serbia, Poland, Romania, and Ukraine, in addition). In line with this mission, its goal is the cooperation and scientific exchange of Central European countries and the popularization of sciences related to separation science. Furthermore, it is supporting the young generation of scientists and practitioners and organizes international symposia on separation science. The history of CEGSS and separation science will be devoted to a special volume of *Separations*, in which the history and current state of separation sciences in individual member countries will be discussed, as well as the institutions and achievements of representatives of individual member countries, will be described. This volume will be dedicated to deceased colleagues who created and worked for CEGSS:

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Frank L. Dorman

Department of Chemistry,  
Dartmouth College, Hanover, NH  
03755, USA

## Message from the Editor-in-Chief

*Separations* offers the scientific community a high-quality, open-access journal option with rapid time-to-publication without any sacrifice of a rigorous peer-review process. We invite contributions ranging from fundamental characterization and instrumentation development through application of techniques to shed light on a broad spectrum of separation science needs. Since inception, *Separations*, has become unique in its combination of rapid publication and thorough scientific content. We invite you to consider us for your next contribution.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
