Message from the Guest Editor

Dear Colleagues,

This special issue “The Role of Environmentalism in Social Development” will not only focus on dynamics of environmentalism and its narratives but also examine its impacts on social development such as: how it generates millions of supporters, changes the way people live, generates new body of knowledge, encourages a rethinking of economic priorities, brings new political parties and broad environmental agendas in the mainstream political parties, becomes an issue in international relations, and makes people feel that nature is finite and misuse of it threatens human existence.

We will welcome conceptual, theoretical, and empirical works related to diverse contours of environmentalism and their impacts on social development.

Message from the Editor-in-Chief

Societies (ISSN 2075-4698) is an interdisciplinary journal that brings together different scientific approaches to engage with societal questions to enhance our understanding of the social realm throughout history. The journal publishes original empirical research papers, literature reviews, and conceptual papers. Our aim is to publish papers that have a significant impact on addressing present and emerging societal questions. Therefore, we encourage researchers to publish their results in as much detail as possible. For empirical research papers and literature reviews, all experimental details must be provided, so that the results are reproducible. We also encourage the publication of timely theoretical pieces on topics of interest to existing and emerging societal questions. Papers are either published in the open journal or in Special Issues devoted to specific topics of interest to the field.
