Message from the Guest Editor

Contributions are invited to an Open Access Special Issue of Societies which explores how EU-rope has been mediatised in a variety of recent social contexts and how that has contributed to different forms of de/legitimation of (trans)national solidarity. We thus focus on how different meaning(s) of (trans)national identities have been constructed, negotiated and challenged not only amidst different 'crises' such as Brexit, austerity, Covid, but also in relation to new digital affordances and actors. We interrogate the production, circulation and consumption of top-down/bottom-up, institutional/public discourse of EU-rope in and by a variety of media to explain how these have related to de/legitimation processes.

Message from the Editor-in-Chief

Societies (ISSN 2075-4698) is an interdisciplinary journal that brings together different scientific approaches to engage with societal questions to enhance our understanding of the social realm throughout history. The journal publishes original empirical research papers, literature reviews, and conceptual papers. Our aim is to publish papers that have a significant impact on addressing present and emerging societal questions. Therefore, we encourage researchers to publish their results in as much detail as possible. For empirical research papers and literature reviews, all experimental details must be provided, so that the results are reproducible. We also encourage the publication of timely theoretical pieces on topics of interest to existing and emerging societal questions. Papers are either published in the open journal or in Special Issues devoted to specific topics of interest to the field.
