Deadline for manuscript submissions:

30 April 2025

Message from the Guest Editors

In this Special Issue, we aim to analyse the challenges of modern societies. In particular, we intend to produce a body of work written by the most competent researchers, which reflects the many risks facing open societies. This volume should become a record or reference for current and future generations looking at present-day society. Contributors are invited to analyse how modern societies fare in an unprecedented age of populism, supported by influential and powerful social media. Populism has existed before, but it has never enjoyed the platforms and channels of modern media.

This approach includes but is not limited to the following: revisiting the notion of an open society to see how its conception has changed since Popper. Today the complexity and reflexivity of modern societies have to be accounted for. Once the notion of an open society, with its emphasis on liberty and the rule of law, is clarified and updated, its many challenges can be assessed, including migration, fake news, civil disobedience, political correctness, the role of public trust and the ethics of AI, etc.

Message from the Editor-in-Chief

Social Sciences is an international open access peer-reviewed journal publishing the latest research across all disciplines of the social sciences including anthropology, criminology, economics, education, geography, history, law, linguistics, political science, psychology, social policy, social work, sociology and related areas. The journal is especially interested in interdisciplinary research, and aims to facilitate the interaction and communication between different social scientific disciplines. The journal welcomes conventional length articles as well as shorter Research Notes or short articles, as long as they meet the journal's standards of quality and originality.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within Scopus, ESCI (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q2 (*Social Sciences, Interdisciplinary*) / CiteScore - Q2 (*General Social Sciences*)
