Message from the Guest Editor

Dear Colleagues,

A psychophysiological perspective offers many opportunities for the advancement of sport theory and practice. This Special Issue aims to bring together a number of papers describing studies that have utilized innovative approaches relying on cutting-edge technology in psychophysiology and neuroscience, to help us better understand the psychology of human performance, offer new possibilities for performance-enhancing interventions, and suggest new and hopefully efficacious approaches for enhanced sport performance.

Prof. Ricardo De La Vega Marcos

Message from the Editor-in-Chief

Sports (ISSN 2075-4663) is a peer-reviewed scientific journal that publishes original articles, critical reviews, research notes and short communications in the interdisciplinary area of sport sciences and public health. It links several scientific disciplines in an integrated fashion, to address critical issues related to sport science and public health. The journal presents diverse original articles, including systematic and narrative reviews, cohort and case control studies, innovative randomized trials, and formative research using qualitative and quantitative methods with the aim to provide information for researchers to plan intervention programs. It addresses diverse public health, physical activity and exercise science topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q1 (Sport Sciences) / CiteScore - Q2 (Physical Therapy, Sports Therapy and Rehabilitation)
