Deadline for manuscript
submissions:

closed (20 January 2024)

Message from the Guest Editor

This Special Issue is focused on colorectal surgery. We will be accepting high-quality research papers on all aspects of colorectal cancer. You are welcome to submit manuscripts on relevant topics including preoperative rehabilitation, selective bowel decontamination, the role of minimally invasive access, robotics in colorectal surgery, real-time vascular study (ICG, hyperspectral imaging, etc.), anastomosis techniques (single stapling, double stapling, hand-sown), techniques of prevention staplerline intersection, the need of fecal diversion, the role of Ghost-ileostoma (virtual ileostoma), transanal bowel decompression, ERAS, “wait and watch” strategy following chemoradiation of rectal cancer, tumor-markers, the role of surgery in the metastatic setting, etc. to this Special Issue.
