Deadline for manuscript  
submissions:

**31 January 2025**

### Message from the Guest Editors

Dear Colleagues,

We invite contributions to this Special Issue on the interoperability of emerging Internet of Things (IoT) applications and blockchain technologies for sustainability. Currently, the IoT and blockchain are emerging as transformative solutions with a strong potential to address sustainability challenges. This Special Issue intends to investigate how the integration of these technologies might promote sustainable practices in a variety of domains, including energy, agriculture, transportation, and supply chains. We welcome contributions that present new research, case studies, theoretical frameworks, and practical applications that demonstrate the synergy between the IoT and blockchain in promoting environmental conservation, resource efficiency, and the circular economy.

By bringing together varied perspectives and cutting-edge research, this Special Issue aims to promote knowledge and inspire creative ideas for a more sustainable future. Researchers, practitioners, and industry professionals are encouraged to submit their findings.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
