Message from the Guest Editors

We organized this Special Issue to discuss wastewater pollution control with a focus on sustainability in the world including, but not limited to, sustainability issues in the water industry faced by the world, advanced wastewater collection and treatment technologies and practices, and how to incorporate the circular economy concept in wastewater collection and treatment systems to better achieve sustainable development.

Submissions for this Special Issue could relate, but are not limited, to the following topics:

- Advanced wastewater collection and treatment systems;
- Water pollution and sustainability;
- Energy, heat and resource recovery;
- Water reclamation and reuse;
- Circular economy in water industry;
- Emerging issues relating to wastewater management.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
