Message from the Guest Editor

This Special Issue is devoted to being the premier platform for the publication of world-leading and high-impact research in the field of sustainable wastewater treatment and processes. Our scope focuses on the sustainable solutions of wastewater treatment, focusing on issues related to its treatment and practices as well as opportunities that lay ahead as the field progressively moves forward. The submission of outstanding research articles and state-of-the-art reviews is actively encouraged from researchers in the following areas of interest:

- Sustainable wastewater treatment processes
- Green-material-based treatment
- Nanotechnology-based treatment
- Microbe-based treatment
- Nature-based treatment
- Wastewater treatment with resource recovery
- Wastewater treatment with water reuse, reclamation and recycling
- Wastewater treatment with less carbon footprint
- Renewable-energy-powered wastewater treatment
- Energy-saving wastewater treatment
- Decentralized wastewater treatment

We look forward to receiving your contributions.
